Dear Chief Craft,

As a resident of Troy for the last nine years, I have had very limited interaction with our police department until recently. I feel compelled to write you a note to express my appreciation to you and your team. Last week I served on a jury in the court of Judge Martone. I was proud of the professionalism displayed by Officer Broderick, other police officers and police support staff during the trial. I want to thank them and your entire team for a great job you do for our community.

With respect and thanks,

Julie Zenger Hain
