RE: Thank you!

Dear Mayor Schilling,

I just wanted to take a moment to express our gratitude regarding the cooperation we received from many of the staff members within the City of Troy offices throughout the planning and construction of Automation Alley's Technology Center. As you are well aware, the timeline for this project was quite aggressive and the quality of the services we received from all departments certainly played a significant role in our ability to turn over the building on time. As such, I think it is important to recognize the following people for their contribution.

Gary Bowers	Ron Figlan	Bill Jawlik
Rick Kessler	Bob Matlick	Pat Pettito
Doug Smith	Mark Stimac	Gary Streight
The entire Inspection Staff	The very kind administrators in the Building Department	

You are very fortunate to have a team of such professionals. It is little wonder the City of Troy is one of the most sought after locations to live, work, play and learn. Thank you again!

Kind regards,

Paul J. Marcus
