Sub: Application of Variance for Split lots B & C for current Property Location 4820 Livernois

Dear Sir/ Madam,

I, Ashish Manek and my wife Minal Gada ( Current Owners) of property @ 4820 Livernois Rd, Troy, MI 48098. We are proud residents of city of troy for last 6 years and 4 years at current resident. We would like to apply to split the lot as per drawings submitted in this application.

Currently there is one house (Our residence)on this lot. This is a unique lot. Keeping the location of this house in mind, we could develop 3 lots. We don't intend to demolish or move current house.

All 3 lots meet the city of troy acreage requirement, However 2 of this lots don't meet the frontage lot requirement. Hence we are asking for variance. All this lots are unique compare to other surrounding lots as they have more depth. Please find attached document that support the following.

- 1) Average Acreage in surrounding subdivision
- 2) Average depth and width in surrounding subdivision.

As our proposed lots meets acreage requirement and as per our survey this three lots would not cause any kind of adverse effect to properties in immediate vicinity or in the zoning district. Infact they would give more revenue to city of troy in taxes.

We plan to build unique energy efficient house on this lots that meets requirement of City of Troy and State of Michigan.

We request you to approve our application.

Thank you for your cooperation.

Yours sincerely

Minal Gada and Ashish Manek

## **The next 3 exhibits are City-provided.**

The intent of this information is to give the Board a numerical idea of lot layout in the area. The exhibits show the *lot frontage* for selected lots.

The first example comprises of properties within 300 feet of the subject property.

The second example comprises properties within a random “block”

The third example comprises of all properties within the platted subdivision, excluding one lot that does not have a house (appears to be a detention pond)

At the end of each exhibit are calculations showing the average lot frontage and one standard deviation.

Keep in mind:

The information is for *lot frontage*, which is different than *lot width*. Lot frontage is the width of the front lot line. Lot frontage is not regulated by the Zoning Ordinance. Lot width is measured at the front setback line. In this district that is 40 feet back from the front lot line.

By using the map, you can estimate which lots might have a wider or narrower lot width than the frontage.

By calculating a standard deviation, you can further examine (statistically) whether the average frontage skewed by a small number of lots that are either very wide or narrow.

Applying one standard deviation to either side of the average frontage tells us where about 68% of the lots within the sample fall.

From Wikipedia:

“**The Standard deviation** is a widely used measurement of variability or diversity used in [statistics](#) and [probability theory](#). It shows how much variation or “[dispersion](#)” there is from the “average” ([mean](#), or expected/budgeted value). A low standard deviation indicates that the data points tend to be very close to the [mean](#), whereas high standard deviation indicates that the data are spread out over a large range of values.”

To Whom it may concern,

The Belzair Property Owners Association would like to share some concerns about the proposed lot division and talk of site condos on this property. I am attaching deed restrictions and by-laws from our association. Mr. Manek and Ms. Gada are active members of our association, but haven't shown us any of their plans.

As president, I spoke with Mr. Evans and showed him our deed restrictions which he hasn't seen before. He has a copy of the complete restrictions. I was shown the proposed division of 85 ft frontage which doesn't comply with the city of Troy or our deed restrictions.

I have also been told his residence is a historic building and must remain so and maintained. The latter is being called into question. It needs a lot of work.

Any questions feel free to call or email me, Karol Szymula, President, Belzair Property Owner's Association, 248-250-0112.

The following covenants, conditions, restrictions, easements, reservations and agreements are hereby imposed on all lots in:

Re-Plat of Belzair Subdivision, a subdivision of part of the Northwest quarter of Section 15, Town 2 North, Range 11 East, Troy Township, Oakland County, Michigan, according to the Plat thereof as recorded in Liber 69 of Plats, on page 7, Oakland County Records.

and shall constitute a general plan of restrictions imposed on all lots in said Subdivision and shall be binding upon the undersigned and upon their heirs, legal representatives, successors and assigns of the undersigned and upon all grantees, their heirs, legal representatives, successors and assigns.

LAND USE AND BUILDING TYPE.

(a) No lots shall be used except for residential purposes. No structure shall be erected, altered, placed or permitted to remain on any lot other than one detached single-family private dwelling not to exceed one and one-half stories in height, except on lots where the topography would permit a two level house to be constructed, a private garage and only where and to the extent hereinafter provided, a private stable for the keeping of riding horses.
