Dear Cathy:

In appreciation of your time and effort, I want you to know that the ABWA ladies really enjoyed your presentation last Wednesday. A couple of years ago we had a program from another library and six of the women came to me after the Wednesday meeting and said they definitely liked your presentation much better. It was interesting, you had a sense of humor and they also learned about additional opportunities that are now available in libraries.

So thank you very much! I hope you get to enjoy the sunshine predicted for this weekend!
