

CITY COUNCIL ACTION REPORT

January 16, 2014

TO: Brian Kischnick, City Manager

FROM: Tom Darling, Director of Financial Services
Nino Licari, City Assessor

SUBJECT: Agenda Item – 2014 Poverty Exemption Guidelines (changes from previous year)

History:

MCL 211.7u states: *"The real property of persons who in the opinion of the Supervisor (read Assessor for Cities) and Board of Review by reason of poverty are unable to contribute toward the public charges is exempt from taxation under this act."*

In order to grant a Poverty Exemption, the Michigan Tax Tribunal (MTT) has ordered that each community develop a set of guidelines to determine whether the applicant qualifies for a one (1) year exemption from property taxes. (The exemption may be re-applied for each year)

The State Tax Commission (STC) has ruled that the Income Guidelines that are used as a portion of the guidelines may not be less than the Federal Poverty Guidelines established each year. Those guidelines have increased approximately \$300 per set for 2014.

As the guidelines include an Assessed Value limit, a Total Asset limit, and changes to the Federal Poverty Income Guidelines, Council is presented with updated guidelines each year for their approval.

The total asset limit, which includes the value of the home, is \$226,600, increased from \$204,800 in 2013, based on the estimated 11% average residential value increase we expect to see this year in Troy.

Financial Considerations:

- There were 16 exemptions applied for in 2013 at the March Board of Review. Of these, 8 were granted exemptions totaling \$623,780 in Taxable Value (T/V). This amounts to \$6,562.17 in exempted City taxes.

Since 2002, residents have been allowed to apply for Poverty Exemptions at the July and December Boards of Review.

This year, there were 3 exemptions granted at the July Board (\$129,980 T/V), and 2 at the December Board (\$117,400 T/V). These additional exemptions accounted for exempted Taxable Value of \$247,380, and exempted City taxes of \$2,602.44. Total exempted City taxes equals \$9,164.61.

The total loss of City taxes for Poverty Exemptions in 2012 was \$7,169.58.

Legal Considerations:

- The guidelines are required by the MTT and STC. The attached guidelines meet the requirements of these rulings.

Policy Considerations:

- The guidelines are a State mandated requirement. They do not conform to current Council goals.

Options:

- Council must adopt Poverty Guidelines. Council may adopt the guidelines as presented, or modify them

**BULLETIN NO. 14 of 2013
CHANGES FOR 2014
November 4, 2013**

TO: Assessors
Equalization Directors

FROM: State Tax Commission (STC)

RE: **PROCEDURAL CHANGES FOR THE 2014 ASSESSMENT YEAR**

The purpose of this Bulletin to provide information on statutory changes or procedural changes for the 2014 assessment year.

A. Inflation Rate Used in the 2014 Capped Value Formula.

The inflation rate, expressed as a multiplier, to be used in the 2014 Capped Value formula is 1.016. The 2014 Capped Value Formula is as follows:

2014 CAPPED VALUE = (2013 TAXABLE VALUE - LOSSES) X 1.016 + ADDITIONS

The preceding formula does not include 1.05 because the inflation rate multiplier of 1.016 is lower than 1.05.

B. Federal Poverty Guidelines Used in the Determination of Poverty Exemptions for 2014.

MCL 211.7u, which deals with poverty exemptions, was significantly altered by PA 390 of 1994 and was further amended by PA 620 of 2002.

Local governing bodies are required to adopt guidelines that set income levels for their poverty exemption guidelines and those income levels **shall not be set lower** by a city or township than the federal poverty guidelines updated annually by the U.S. Department of Health and Human Services. This means, for example, that the income level for a household of 3 persons **shall not** be set lower than \$19,530 which is the amount shown on the following chart for a family of 3 persons. The income level for a family of 3 persons may be set higher than \$19,530. Following are the federal poverty guidelines for use in setting poverty exemption guidelines for 2014 assessments.

Size of Family Unit	Poverty Guidelines
1	\$ 11,490
2	\$ 15,510
3	\$ 19,530
4	\$ 23,550
5	\$ 27,570
6	\$ 31,590
7	\$ 35,610
8	\$ 39,630
For each additional person	\$4,020

Note: PA 390 of 1994 states that the poverty exemption guidelines established by the governing body of the local assessing unit shall also include an asset level test. An asset test means the amount of cash, fixed assets or other property that could be used, or converted to cash for use in the payment of property taxes. The asset test should calculate a maximum amount permitted and all other assets above that amount should be considered as available. Please see STC Bulletin 5 of 2012 for more information on poverty exemptions.

Note: P.A. 135 of 2012 changed the requirements for filing documentation in support of a poverty exemption to allow an affidavit (Treasury Form 4988) to be filed for all persons residing in the residence who were not required to file federal or state income tax returns in the current year or in the immediately preceding year. This does include the owner of the property who is filing for the exemption.

C. Multipliers for the Valuation of Free-Standing Communication Towers.

The State Tax Commission recommends that, subject to the qualifications stated below, communication towers should be valued for the 2014 assessment year using the table of **historical** (original cost when the tower was new) cost valuation multipliers set forth in the multiplier table below. These multipliers have been developed in a manner such that they account for the typical depreciation which is expected for a tower of the indicated age and also account for changes in the cost of the tower and erecting it that have occurred since the time the tower was constructed. On this basis, the multiplier table which is shown below is intended to predict the current true cash value of a tower of the vintage year in which the tower was constructed. An important component in determining the current value of a tower built in a given year is the change in the cost of materials, particularly changes in the cost of steel, between the time of construction and the current Tax Day. Since the table considers both depreciation and changes in construction costs, and since changes in construction cost have not always occurred at a constant rate, the multiplier table does not always evidence a decline in the rate by which the historical cost must be adjusted in order to determine current value. This effect is expected and can be better understood if one remembers that the multiplier table is not a depreciation table and the multipliers are applied to the historic cost of construction, not to the current replacement cost.
