Subject: Tree removal

On Sunday, February 05, 2006; a tree limb broke away from the trunk of a tree and fell across Upton Drive. The street was completely blocked by the limb. When we noticed the limb, we called the Public Works Emergency number and notified the dispatcher of the problem. City personnel responded within 15 minutes to assess the situation and arrange for the removal of the limb.

I commend your Public Works staff for responding to this problem in a timely manner on a snowy Sunday morning.

Lloyd Lewis
3405 Upton Drive
