Dale R. Zygnowicz, Troy resident, attended the meeting as a guest.

Robin Beltramini, City Council Member, was in attendance to clarify comments made at the 1/23/06 City Council meeting regarding overlapping of responsibility between committees. Ms. Beltramini has asked City staff to review the duplicity, if any, between committees to be sure they are making the most efficient use of staff and volunteer time. Ms. Beltramini stated that she is trying to expand the committee's influence; not narrow it. Perhaps an umbrella committee could be formed and meet quarterly with input from individual committees. Current members from existing boards and committees would be appointed to form the membership of this new committee. Several members of this Committee showed support for continuing the study of this new umbrella committee. However, members unanimously urge Council not to consider dissolving or changing the meeting dates of the Advisory Committee for Persons With Disabilities.

Done contacted the Architectural Department at the Lawrence Tech University and they agreed to come and speak regarding freedom by design and training of students in ADA compliance. April 5<sup>th</sup> is the tentative date for this guest
