**WHEREAS**, Teenagers who virtually never eat dinner with their families are 72 percent more likely than the average teenager to use illegal drugs, alcohol and cigarettes; and

**WHEREAS**, Teenagers who almost always eat dinner with their families are 31 percent less likely than the average teenager to use illegal drugs, alcohol and cigarettes; and

**WHEREAS**, The correlation between family dinners and reduced risk for teen substance abuse are well documented; and

**WHEREAS**, Parental influence is known to be one of the most crucial factors in determining the likelihood of substance abuse by teenagers; and
