Re: Clawson Crash Investigation 14-486

On Thursday February 6, 2014 Ofc. Melinda Weingart assisted me with a hit and run crash involving a black Audi that fled shortly after the crash occurred. At the time of the crash we were given a possible plate for the fleeing vehicle which at that time was the incorrect plate number. After numerous attempts to identify the correct plate number I was unable to do so. Ofc. Weingart, during the initial investigation, exhibited a great level of professionalism in her interactions with the motorists involved, helping to keep them calm and relaxed.

In addition to her professionalism on scene, it was her follow up after the crash that led to the identification of the responsible vehicle. This extra effort by Ofc. Weingart led to the identification and confession from the responsible driver.

On behalf of the Clawson Police Department and the other drivers involved in the crash I wanted to express my appreciation for her extra efforts.

Sincerely,

Sgt. David Scott
