Subject: Ace that Job Interview

Hi Cathleen,

My name is Susan Hicks and I just watched your talk about interviews. It was wonderful. Not only did I learn a lot you were very funny. Your talk was very enjoyable and so much great information was given on every aspect of the entire interview.

I'm currently looking for a job and this comes right in time for me and I will be using all the advise and tips that you gave. Thank you for taking the time to help our community find work. You're great at what you do and I can see why you're the director of the library. I learned so much from this.

Thank you,

Susan
