

## CITY COUNCIL ACTION REPORT

June 6, 2007

TO: Phillip L. Nelson, City Manager

FROM: John Lamerato, Assistant City Manager – Finance and Administration  
Gert Paraskevin, Information Technology Director  
Cindy Stewart, Community Affairs Director

SUBJECT: Archiving City Council Meeting Webcasts on the Website

### Background:

- Currently we webcast the City Council meetings while they are being shown live on our Cable Channel.
- Residents and City Council Members have asked us to look into offering past webcasts on our website.

### Financial Considerations:

- There is no additional cost involved to accomplish, only additional staff time to archive the meetings the day after they are broadcast. We have enough disk space to accommodate one year's worth of meetings (approximately 14GB). We can place them on the City Council web page.

### Policy Considerations:

- By expanding what is offered to our citizens electronically we improve the availability of information (Goal IV).

### Legal Considerations:

- None
