Subject: Citizen Compliment

Rosanne Meclsaac called today to praise the young female officer who helped her after her car broke down on Maple east of Stephenson yesterday. Meclsaac said the officer was like a "guardian angel" making sure she was safely off the road, and ensuring that she would be able to get home. She said the officer offered to call someone for her on the officer's personal cell phone, and also offered to drive her home. Meclsaac said she could just tell that it was in the officer's character to be helpful.

I researched it, and discovered it was Kris Maczka who helped this lady. I assured her I would notify the officer's supervisors. I have made a copy of this e-mail for Maczka's Department file.
