## **REZONING REQUEST**

8. **PUBLIC HEARING – PROPOSED REZONING (Z 716)** – City Initiated Rezoning of the non-conforming parcels in the area of Troyton Manor, Adrienne Manor, and the southern portion of John F. Englehardt Subdivisions, Section 30, From R-1C (One Family Residential) to R-1E (One Family Residential) District

Mr. Savidant provided a comprehensive explanation on the City-initiated rezoning request. He reported it is the recommendation of City Management to approve the rezoning request.

[Mr. Littman arrived at 7:43 p.m.]

Mr. Savidant noted the Planning Department received an enormous amount of phone calls on the proposed rezoning. A major concern expressed by the residents was if the proposed rezoning would allow monster homes. Mr. Savidant assured the residents that the proposed rezoning would not allow monster homes.

### **PUBLIC HEARING OPENED**

Ron Ezell of 1081 Norwich, Troy, was present. Mr. Ezell asked if homes would be limited to one story.

Vice Chair Schultz stated there would be no increase or decrease in height limits. Mr. Savidant confirmed this.

4. **PUBLIC HEARING – PROPOSED REZONING (revised request) Z 632-B** – Proposed Condominium Development, West side of Rochester Road, North of Wattles, Section 15 – From CR-1 (One Family Residential Cluster) to R-1T (One Family Attached Residential) District

Mr. Savidant presented a summary of the Planning Department report on the proposed rezoning request, and reported it is the recommendation of City Management to approve the rezoning application.

#### **PUBLIC HEARING OPENED**

Paul Woleben of 880 Barclay Court, Troy, was present. Mr. Woleben, initiator of the protest petition, voiced opposition to the proposed rezoning. He addressed density, building height, property values and environmental surroundings. Mr. Woleben said the proposed rezoning would allow 14 to 16 units to be built on the site.

Dawn Aronoff of 864 Barclay Court, Troy, was present. Ms. Aronoff voiced opposition to the proposed rezoning and indicated she signed the protest petition. She said her concerns are similar to those expressed by Mr. Woleben, and it would be more reasonable to put in single family homes.

Gary Jacobs of 872 Barclay Court, Troy, was present. Mr. Jacobs expressed opposition to the proposed rezoning, noting his concerns are similar to those already expressed. Mr. Jacobs also addressed the private street that would abut his property line.

Edvin Hoti of 964 Barclay Drive, Troy, was present. Mr. Hoti expressed opposition to the proposed rezoning. He said the \$3,000 fence he put up would have to be removed. Mr. Hoti addressed the impact on property values, and said it would be more logical to put in single family homes.

Yudong Zhou of 856 Barclay Court, Troy, was present. Mr. Zhou voiced opposition to the proposed rezoning. He addressed property values and the potential negative affect on the neighborhood.

#### **PUBLIC HEARING CLOSED**

Vice Chair Schultz referenced the resident who expressed concern about his fence. He asked if there would be any reason the fence would have to be removed with the onset of development, if the fence is in fact on the resident's property.

Mr. Motzny said he knew of no reason why the resident would have to remove his fence.

Mr. Vleck said he would be more in favor of considering the rezoning request as a conditional rezoning.

Mr. Khan said the rezoning request is consistent with the Master Land Use Plan, but he thinks a better site plan could be designed. Mr. Khan asked if 16 units could be placed on the site.

Mr. Savidant said the developer could come back with a site plan that shows more units than shown on the site plan submitted with the rezoning application.

Eric Salswedel of SDA Architects, 42490 Garfield, Clinton Township, was present to represent the owners. Mr. Salswedel said realistic calculations would produce approximately 8 units on the site. He said a higher density would not be realistic due to the size and shape of the parcel. Mr. Salswedel said the co-owners would like to construct town homes in the range of 2,000-2,400 square feet in which they can move into themselves. He addressed the preservation of trees and the cul de sac that is required by the Fire Department.

Bala Murthy of 1741 Greenwich, Troy, was present. Mr. Murthy is a co-owner of the subject parcel and has been a resident of Troy since 1990. He said letters were sent to neighbors to assure them the proposed development would not spoil the beauty of the neighborhood. Mr. Murthy said they intend to construct nice homes that are true to the spirit of Troy and preserve as many trees as possible.

Mr. Littman said the members do not doubt the honesty and intent of the owners. He explained that should the property get rezoned, there is no guarantee the site plan submitted with the rezoning request would be the same site plan submitted for site plan approval, or the property could be sold and developed in a different manner. Mr. Littman thanked the owners for purchasing the additional lots. He asked if the survey showed any encroachments, such as the aforementioned fence. He encouraged the owners to give the neighbors the courtesy of reviewing the site plan prior to submittal.

Mr. Salswedel said the certified survey required for the rezoning request establishes boundary only and it is not known at this time if there are any encroachments on either side of the property line.

Mr. Khan commented that moving the cul de sac closer to the homes, and not all the way back to the property line, might be more satisfactory to the neighbors.

Vice Chair Schultz reminded members that tonight's meeting is for consideration of the rezoning request only.

**Resolution # PC-2006-06-100**

Moved by: Khan  
 Seconded by: Littman

**RESOLVED**, That the Planning Commission hereby recommends to the City Council that the CR-1 to R-1T rezoning request, located on the west side of Rochester Road, north of Wattles, within Section 15, being approximately 2.27 acres in size, be granted, for the following reasons:

1. That the application is consistent with the intent of the Master Land Use Plan and therefore involves areas indicated as medium density or high density residential.
2. The R-1T is consistent with the intent of the Master Land Use Plan

**Discussion on the motion.**

Mr. Vleck said the request is consistent with the Master Land Use Plan, but it would be preferable to consider the request as a conditional rezoning. Mr. Vleck said he would not support the site plan should it come before the Planning Commission showing the cul de sac back to the property line. He would support the conceptual plan, as submitted with the rezoning request, with a buffer zone provided for the neighbors.

**MOTION CARRIED**

6. **SITE PLAN REVIEW** – Proposed Village of Tuscany Site Condominium, 9 units/lots proposed, South side of Long Lake, West of John R, Section 14, Zoned CR-1 (One Family Residential Cluster)

Mr. Savidant presented a summary of the Planning Department report on the proposed Village of Tuscany Site Condominium, and reported it is the recommendation of City Management to approve the application as submitted subject to approval of the landscape plan prior to final site plan approval. Mr. Savidant noted that the Planning Department received two letters from neighbors abutting the subject property to the south that were distributed to members prior to tonight's meeting.

Joseph Vaglica of Gateway Engineers, 8155 Annsbury, Shelby Township, was present to represent the petitioner. He addressed the landscape plan with respect to the comments of the City's Landscape Analyst.

Vice Chair Schultz asked the petitioner to address the neighbors' requests to provide an evergreen buffer to shield headlights.

Mr. Vaglica indicated there would be no problem providing evergreens along the cul de sac on the south side of the property.

Mr. Motzny confirmed that the Planning Commission, under Section 11.50.04 of the Zoning Ordinance, has the discretion to condition approval on the provision of a landscaped berm or equivalent obscuring device, as well as specifications on type, quantity and height of such provision.

Antonio Vettraino 6924 Montclair, Troy, co-owner of the subject property, was present. Mr. Vettraino confirmed there would be no problem providing a buffer of evergreen trees along the southerly line.

Brief comments were made on providing a fence as a buffer.

Vice Chair Schultz opened the floor for public comment.

John Makris of 4919 Calvert Drive, Troy, was present. Mr. Makris addressed the natural, environmental setting of the neighborhood. He asked why the City has marked some trees for removal. Mr. Makris asked for reassurance that the designated landscaped areas would be part of the dedicated parcel, and maintained and dedicated as open space within the development in the future.

Vice Chair Schultz provided a brief explanation on City policy to remove noxious trees prior to the onset of new development.

Mr. Makris said a 50-foot high cottonwood is the most prominent tree existing on the site, and asked if the City would make an exception to its removal.

Vice Chair Schultz said that request would have to be pursued through the Planning Department during regular business hours.

It was brought to the attention of Mr. Makris that some of the landscaping and trees to which he is referring is located on the proposed development's property, and it would be at the discretion of the property owner/s to keep or remove the landscaping.

The floor was closed.

Mr. Savidant presented a summary of the Planning Department report on the proposed Tuscany Estates Site Condominium, and reported it is the recommendation of City Management to approve the site condominium application as submitted. He noted the City of Troy requires ownership of all ponds used for either detention or retention of storm water within single family developments.

The petitioner, Anthony Fanelli of 50466 Heatherwood, Shelby Township, was present. Mr. Fanelli confirmed that he maintains a good working relationship with the property owner to the north who is requesting screening from the development.

Vice Chair Schultz asked if the Resolution should include stipulation for an access to the detention basin on behalf of the City.

Mr. Savidant replied in the affirmative.

**Resolution # PC-2006-06-105**

Moved by: Kerwin

Seconded by: Khan

**MOTION CARRIED**

Mr. Vleck stated that requiring all three criteria in Section 43.74.01 is too restrictive, and he does not agree that standard A and B should be required at all. In his opinion, Section 43.74.01 C, relating to the location and screening available on the residential site to park a commercial vehicle, is the only standard that should be required for approval.

**SITE PLAN REVIEWS**

12. SITE PLAN REVIEW (SP 930) – Proposed Industrial Building, West side of Chicago, South of Maple Road (1099 Chicago), Section 35, M-1 (Light Industrial) District

Mr. Savidant presented a summary of the Planning Department report on the proposed industrial building, and reported it is the recommendation of City Management to approve the site plan as submitted.

The petitioner, Niraj Sarda of First Industrial Development Services, 2000 Town Center, Southfield, was present. Mr. Sarda said several parties are in negotiation to build a 50,000 square foot building on Parcel 2, of which it is planned to split from the parent parcel.

13. SITE PLAN REVIEW (SP 305-D) – Proposed South Parking Lot and North Drive Beaumont Hospital, South of South Blvd., West side of Dequindre Road, Section 1, C-F (Community Facility) and E-P (Environmental Protection) Districts

Mr. Savidant presented a summary of the Planning Department report on the proposed south parking lot and north drive for Beaumont Hospital. He noted that the petitioner did not include copies of the elevations or floor plans for the temporary loading dock and trailer for inclusion in the Planning Commission packet. Mr. Savidant reported it is the recommendation of City Management to approve the site

plan as submitted with the condition that an 8-foot wide sidewalk is provided along Dequindre Road.

There was discussion relating to easements to the property owned by the City of Detroit Water Department and the City of Troy's Flynn Park.

Craig McEwen, architect, and Mark Hieber, landscape architect, were present to represent Harley Ellis Devereaux. John Krolicki was present to represent Beaumont Hospital Troy.

Mr. Krolicki said a letter of intent signed by the Detroit Water and Sewage Department to execute the easement has been received. He indicated the easement for Flynn Park is being negotiated with the City's Parks and Recreation Director. Mr. Krolicki addressed the employee entrance off of South Boulevard with respect to a secured entrance.

Mr. Hieber addressed in detail the environmental aspect of the development.

Internal departmental review comments were addressed one-by-one with the petitioners.

Vice Chair Schultz addressed the size of the parking lot and the amount of asphalt. He said a reduction in the width of the parking space from the required 9.5 feet to 9.0 feet would lessen the expanse of asphalt and impervious surface and create more green space. Vice Chair Schultz asked if the petitioner would consider going before the Board of Zoning Appeals (BZA) to request a variance on the width of the parking spaces.

Mr. McEwen agreed to entertain the option for a BZA variance, but addressed the timeframe involved in the BZA approval process as relates to ongoing construction plans. He asked the members' consideration in granting site plan approval subject to their submission for a variance request.

It was understood that should a variance be granted by the BZA, the petitioners would be required to submit a revised site plan for review and approval by the Planning Commission. The petitioners were advised to work with the Building Department on various development aspects while seeking a BZA variance.

There was a brief discussion regarding the temporary status of the trailer and loading dock.

Vice Chair Schultz opened the floor for public comment.

Richard Hughes of 1321 Roger Court, Troy, was present. Mr. Hughes addressed the walking distance from the hospital's parking lot to various hospital departments and sustainable green design.

Paul Fleck of 2805 Ranieri Drive, Troy, was present. Mr. Fleck's home abuts the hospital property to the south. He indicated there have been numerous meetings between the hospital representatives and neighbors to the south. Mr. Fleck asked if an additional separation between the south side of the property line and the edge of the pavement could be provided, should the hospital be granted a variance.

Gerald Guirey of 2777 Ranieri Drive, Troy, was present. Mr. Guirey, vice president of the Ranieri Homeowners Association, was involved in reaching the agreement with Beaumont Hospital approximately five years ago. He indicated there are some modifications to the letter of agreement, but the spirit of the agreement has been maintained. Mr. Guirey said Beaumont has been very open and communicative.

Mr. Littman suggested that a copy of the executed letter of agreement between the neighbors and Beaumont be provided to the City.

The floor was closed.
