#### 5. PRELIMINARY SITE PLAN REVIEW (File Number SP 955) – Proposed Axle Tech, 1400 Rochester Road, East side of Rochester and South of Maple, Section 34, Currently Zoned M-1 (Light Industrial) District

Mr. Branigan presented a summary on the revised landscape plan for the proposed Axle Tech project. He addressed the provision of additional landscaping and the significant changes made to the existing access and greenbelt area. Mr. Branigan addressed an issue with existing utilities that might be located beneath proposed street trees, and asked the petitioner to correct site plan notations with respect to the two closed driveways. Mr. Branigan recommended that the Planning Commission approve the preliminary site plan, noting those two conditions.

Mr. Savidant pointed out that the revised site plans distributed to the members prior to the beginning of tonight's meeting reflect all appropriate revisions as relates to the landscaping and street access.

Mr. Ullmann addressed the proposed stormwater management on site with respect to the Clean Water Act and the City's obligation to follow all state and federal regulations. Mr. Ullmann voiced opposition to the existing underground parking lot detention. He encouraged City administration to address underground stormwater management in the future.

Mr. Savidant confirmed the site plan meets all engineering standards with respect to stormwater management. Mr. Savidant said the petitioner is required only to provide stormwater management for the addition, and not the existing portion.

Mr. Savidant confirmed that the Planning Department does not have a Registered Landscape Architect on staff.

Kevin Biddison of Biddison Architecture and Design, 4327 Delemere Court, Royal Oak, was present. Mr. Biddison briefly addressed the proposed landscaping and access drives.

Yes: Edmunds, Hutson, Schultz, Strat, Tagle, Vleck  
 No: Ullmann  
 Absent: Maxwell, Sanciza

### **MOTION CARRIED**

6. PRELIMINARY SITE PLAN APPROVAL (File Number SP 954) – Proposed AT&T Wireless Facility at Troy Lanes, South Side of Square Lake Road, West of John R (1950 E. Square Lake), Section 11, Zoned B-2

Mr. Branigan presented a summary of the revised preliminary site plan application for the proposed AT&T Wireless Facility at Troy Lanes. He addressed the variances granted by the Board of Zoning Appeals (BZA) and the revised location of the proposed tower. Mr. Branigan recommended that the Planning Commission approve the proposed wireless tower, and make a final determination on the design of the tower (monopine or monopole).

Wally Haley of Haley Law Firm, 8065 Grand River, Brighton, was present to represent the petitioner. Mr. Haley said either tower design alternative is acceptable to AT&T and other prospective carriers. He circulated a picture and addressed the aesthetics and vegetation of a monopine pole. Mr. Haley also addressed the placement of future carriers on the pole, and the maximum amount of carriers per pole. He suggested that approval be granted subject to future carriers providing foliage when co-locating.
