

Rouge River Water Festival at

October 17, 2007

Dear Jen Lawson,

On behalf of Cranbrook Institute of Science and the Office of the Oakland County Drain Commissioner, we are writing to thank you for your volunteer participation at the 2007 Rouge River Water Festival at Cranbrook Institute of Science. Over 1200 fifth grade students from twenty-five elementary schools throughout the Rouge River watershed participated in this event.

Your contribution as a volunteer helped ensure the overall success of the 5th annual Rouge River Water Festival held at Cranbrook Institute of Science. We sincerely hope you will join us again September 2008, as a volunteer for this unique environmental education event.

Sincerely,

Michael J. Stafford
