Attention: Officers Brazel and Quaiatto

My husband and I wanted to say "Thank You" for taking care of our home on February 14, 2008.

I didn't listen to the message you left on my cell phone until several hours after you had left it and when you mentioned that our door was wide open, my heart sank ... all kinds of thoughts rushed to the forefront of my mind. However, after listening further to your message, it indicated that all was well and that you had looked all around the house and nothing was out of order. I cannot express what a relief it was to hear those words.

James and I wanted to formally thank you for making sure that the house was locked and making sure that we knew all was well. We were out of town and unable to get back to the house right away. Because of your quick response to our alarm and your efforts to secure our home, we avoided a break-in and the possibility of loosing a lot of valuable items from our home.

Thanks again and just know, you made two citizens of Troy very happy and much relieved while they were away from home!! ☺

Sincerely yours,

RECEIVED
