Re: Fire Incident at 920 John R. May 25, 2008

Dear Chief Craft,

I would like to thank the police officers that responded to the structure fire at Oakland Park Towers for their actions in assisting with the evacuation and return of residents to their apartments. Officers assisted many of the residents who required help to utilize the stairwells to evacuate and return their apartments. Many of the residents congregated in the main lobby and just outside the front doors, and the officers were very attentive to the needs of these residents while they waited for the all clear to return to their apartments.

Please extend our thanks to those who responded.

William S. Nelson
Fire Chief
