**Subject:** RE: Questions for tonight's agenda

Cristina,

Phil is out of the office until Thursday of this week; I can address the questions that you have on items E-5 and E-8.

E-5 Scheduling a Special Meeting

I think Phil was expecting there to be lengthy conversation on the BFO process and therefore recommended separate meeting dates. Perhaps you could discuss this tonight and see how the other Council members feel about adding these meetings as study items on regular meeting nights? Please advise if there something we should provide for tonight's meeting.

E-8 Proposed Relocation of City Treasurer's Office and Planning Department

I can confirm that the \$74,000 includes benefits for the Account Clerk II position, which was included in the 2008/09 budget for the City Treasurer's Office. The Account Clerk II position will be eliminated after a retirement around the first of September.

Please let me know if Brian or I can provide more information on these or other topics.

Sincerely,  
Mary Redden  
City Manager's Office

**Subject:** Questions for tonight's agenda

Good Afternoon Phil,

Just a couple questions:

E-5  
Scheduling a Special Meeting for a Preliminary Discussion of BFO...  
Could we also look at having this meeting (and others that relate to BFO), as an item for study sessions after our regular meeting? I am sure many of us have summer plans and have scheduled them around our regular

business meetings. Additionally, I start teaching a summer class on Wednesday nights from June 25-August 13 and will not be available any Wednesday nights. Our summer agenda's are typically light so a study session after them would not take us so far into the late evening.

E-8

I see that there will be a savings of \$74,000 of one full time employee should these changes take place. the cost however for the reconfiguration is estimated at \$115,000. My questions is...does the \$74,000 amount include the benefit package and when would this position be eliminated? What exactly was this position titled? Was this position's expenditure part of the 2008/9 budget?

Cristina

*Blessings,  
Cristina Broomfield*
