STATEMENT OF PRACTICAL DIFFICULTY

In order for a variance to be granted, a practical difficulty, as determined by the Board, must be present. On a separate sheet, please clearly identify and explain the practical difficulty justifying the variance request. The practical difficulty must be clearly related to as many of the 5 standards below as possible:

- a) Exceptional characteristics of property for which the variance is sought make compliance with dimensional requirements substantially more difficult than would be the case for the great majority of properties in the same zoning district. Characteristics of property which shall be considered include exceptional narrowness, shallowness, smallness, irregular shape, topography, vegetation and other similar characteristics.
- b) The characteristics which make compliance with dimensional requirements difficult must be related to the premises for which the variance is sought, not some other location.
- c) The characteristics which make compliance with the dimensional requirements shall not be of a personal nature.
- d) The characteristics which make compliance with dimensional requirements difficult must not have been created by the current or a previous owner.
- e) The proposed variance will not be harmful or alter the essential character of the area in which the property is located, will not impair an adequate supply of light and air to adjacent property, or unreasonably increase the congestion in public streets, or increase the danger of fire or endanger the public safety, or unreasonably diminish or impair established property value within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the City.
