Subject: Traffic Control

Dear Sir,

I was traveling to work this morning via I-75 southbound. There was an accident ahead of me in the southbound lane. Two of your police vehicles were on the scene. One patrol vehicle was securing the accident scene while the second the slowing and controlling the traffic approximately ¼ mile upstream of the accident.

I want to commend your officers on how they position their vehicles to slow down traffic during a heavy rain to avoid additional accidents in the area. Safety was their main concern. They really did a great job. I always have been impressed with the professionalism of Troy's Police and Fire Departments.

Have an amazing day.
