Mr. Drouillard presented his plans to add a 3 car garage and a two-level deck to the historic resource at 5871 Hilmore. The following points were noted by the Commission:

1. The plan is for a Greek revival style structure (40' x 24') that matches the style of the house

2. The garage doors face north, not east towards the street. A pedestrian entry and a window are on the east side of the structure.
3. There is a wheelchair-accessible ramp from east door to the deck along the south side of the garage.
4. The garage is located west of (behind) the house, and away from the road. A new driveway along the north side of the house leads to the garage. There is an existing driveway on the south side of the house.
5. Mr.Drouillard wishes to keep both driveways. He will check with the city to see if this is permitted.
