The Michigan Public Service Commission (Commission) will hold a public hearing to consider the January 5, 2009, request of The Detroit Edison Company (Detroit Edison) for authority

to implement cost-based rates for educational institutions and for the approval of surcharges to recover a reduction in revenue resulting from moving educational customers to cost-based rates.

Detroit Edison states that the redesigned tariffs necessarily result in a revenue decrease from the revenue collected under the current applicable rates as of the date of its application. The applicant is requesting that the surcharges proposed in its application be approved coincidentally with approval of the proposed tariffs. In the alternative, Detroit Edison requests that the Commission affirm and recognize for ratemaking purposes, the establishment of a regulatory asset or to order and authorize the deferred recovery of the revenue decrease resulting from the approval of the educational tariffs without the requested surcharge through the use of Account 182.3 (Other Regulatory Assets) and Account 407.4 (Regulatory Credits) for this purpose.

All documents filed in this case shall be submitted electronically through the Commission's E-Dockets Website at: michigan.gov/mpscedockets.
