Chief William S. Nelson
City of Troy, Fire Department
500 W. Big Beaver Rd.
Troy, MI 48084

Dear Chief Nelson,

On behalf of the Royal Oak Police Department, I would like to offer our appreciation for allowing the use of your camera system. The City of Royal Oak has been a target for parking meter thefts for several months and I thank you for your assistance in this matter.

Although the wanted subjects did not commit any meter thefts since the installation of the cameras, we believe that the presence of the cameras acted as a strong visual deterrence which kept the wanted subjects from committing more crimes. I also thank you and your staff for being readily available to answer any questions we had pertaining to the operation of your camera system.

This is a perfect example of teamwork within the Public Safety community showing that we are not just policemen and firemen from two different cities, but members of one big family. We at the Royal Oak Police Department would like to thank you and your staff for going above and beyond your call of duty in assisting with this police investigation. We appreciate you and your staff taking time out of your busy schedules to personally set the camera system up throughout the Royal Oak Central Business District. I look forward to future mutual assistance between our departments.

Thank you,

Christopher M. Jahnke
Chief of Police
