Subject: Great Job on Coolidge Highway

Mr. Richnak,

As a Troy resident and one who uses Coolidge daily I can understand how difficult (no shoulders, boulevard medium, heavy traffic) a rehab job can be on this highway--no matter how small/large the project.

From a "sidewalk superintendent" perspective (strictly!)...the planning and execution of the recent work and short-time "shutdown"---by both your department personnel and the contractor was great----all seemed to be doing the best, most expedient job possible of any repair job of this magnitude that I have observed. Kudos to all who had a part in "making it happen"
