Subject: Thank You!

Hello Mr. Roberts!

I just wanted to send a brief email to thank you and the firemen of Troy for the kindness that was given on Christmas Day. My home became very smoky while cooking Christmas dinner due to some grease that spilled in the oven while cooking lamb chops thus triggering my upstairs alarm that sent a signal to the fire department. My best efforts to cancel this and not have the fire truck come to my home was not possible as the alarm was already triggered and I deeply apologize for this. I am in the process of changing this so my alarm company will first contact me before the fire department.

With about 20 guests at my home, the fire truck arrived and was met with nothing but some burnt lamb chops to report. They were very kind and took the time to be sure we were safe and say hello to my nephew, Michael, who has downs syndrome. Michael and the other teenagers were also able to get a picture with them. Although, I was very embarrassed and felt terrible that I had caused these men to have to come to my home on Christmas Day, it sure made a wonderful Christmas for Michael who was so excited and the other kids.

Please extend our thank you to the firemen and to the Lieutenant who was in charge that evening. I apologize as I did not get his name or any of the others.

I am thankful to be a Troy resident and know that we have one of the best police and fire departments in the State.

Happy New Year!

Janis
