A) Resolution to Deny

Resolution #2019-07-073

Moved by Baker

Seconded by Pennington

WHEREAS, The City is in receipt of a rezoning request, from R-1B (One Family Residential) to BB (Big Beaver) Zoning District (Site Type C, Street Type C); and

WHEREAS, The subject property is located on the east side of McClure, north of Big Beaver, within Section 20, being approximately 2.55 acres in size.

BE IT RESOLVED, That the City Council hereby **DENIES** the rezoning request, from R-1B to BB (Site Type C, Street Type C), as per Section 16.03 of the City of Troy Zoning Ordinance, located on the east side of McClure, north of Big Beaver, within Section 20, being approximately 2.55 acres in size, for the following reasons:

1. The rezoning of the parcel to the BB, Big Beaver Zoning District may be compatible with the Master Plan, however, when the Master Plan was approved in 2011 and subsequent changes were made to the zoning map, the City chose not to extend the rezoning into the residential area at Alpine and McClure Roads. Because the future use of the property is unknown, compatibility with the Master Plan cannot be determined. Specifically, impacts of compatibility with adjacent property, and ensuring proper transitions, cannot be determined.
2. The site is located on an interior lot that does not front nor have direct access to Big Beaver Road.
3. The abutting land uses to the north and west are 2-story, single-family residential dwellings. The single family residential dwellings to the west were approved as a Planned Unit Development (PUD-4) in 2012, after the Master Plan was approved in 2008. The development potential of the site for a building up to 6-stories, 72-feet in height would not be compatible with adjacent properties to the north and west.
4. There are a number of uses permitted in the BB, Big Beaver district that are not compatible for both intensity and scale to the adjacent land uses.
5. Due to the unknown future use, intensity, and scale of the site, the impact of the development on public health, safety, or welfare cannot be determined.
6. Due to the unknown future use, intensity, and scale of the site, the ability to provide public services and facilities cannot be determined.
7. Due to the unknown future use, intensity, and scale of the site, determination of whether the rezoning will ensure compatibility with adjacent uses of land cannot be determined.
